SUMMARY

I am a proficient MERN Stack Developer skilled in creating dynamic and responsive web applications. My expertise spans across React.js, Node.js, Express.js, and MongoDB, allowing me to effectively enhance user experience. I have successfully integrated third-party APIs and have a strong focus on collaboration and efficient coding practices. I am passionate about continuously learning and applying new technologies to address complex problems.

EXPERIENCE

REACT DEVELOPER

AZLOGICS (PVT) LTD

📅 01/2025 - Present   📍 Rahim Yar Khan, Pakistan

Company focusing on providing software solutions

- Enhanced user experience by implementing responsive web designs and optimizing application performance.
- Developed reusable components to facilitate faster development timelines and improve overall code quality
- Maintained high-level expertise in React state management strategies
- Collaborated closely with UX/UI designers to translate designs into functional components, ensuring a seamless user experience that reduced bounce rates by 15%
- Integrated RESTful APIs into applications, which improved data retrieval speed and boosted overall application performance, leading to a better user satisfaction rating

INTERN

HELLO WORLD TECHNOLOGIES

📅 06/2024 - 09/2024   📍 Rahim Yar Khan, Pakistan

Technology company offering development services

- Successfully developed advanced e-learning, social media, and e-commerce platforms
- Managed both the frontend and backend, delivering a seamless and engaging user experience
- Designed interactive course interfaces, implemented robust user management systems, and integrated dynamic features to enhance learning and social interactions
- Showcased ability to create effective, user-friendly educational environments

EDUCATION

BS SOFTWARE ENGINEERING

KFUEIT

📅 09/2023 - 09/2027   📍 Rahim Yar Khan, Pakistan

KEY ACHIEVEMENTS

✔ **Performance Optimization**
Successfully enhanced application performance and user satisfaction through effective collaboration and innovative solutions.

SKILLS

Bootstrap, CSS, ECommerce, E-Learning, Git, JavaScript, MongoDB, Netlify, Next.js, React, Redux, REST, Stripe, Tailwind, Node.js, Express.js, Gmail, Responsive Web,

PROJECTS

Link Up

A personal project focusing on backend development for a social media application

- Designed and implemented APIs for a social media app, focusing on user engagement
- Contributed to the app's community growth by enhancing backend functionality.

E-Learning Platform

A personal project focused on creating an e-learning platform

- Developed a full-stack learning platform enabling users to browse and access courses from mentors across various topics.
- Frontend: Built with React.js for an interactive and dynamic user experience
- Backend: Implemented using Node.js with MongoDB Atlas for efficient data handling and scalability
- Responsive Design: Designed with Tailwind CSS and CSS, ensuring accessibility across all devices
- Enhanced User Experience: Utilized JavaScript and supporting libraries to deliver a smooth and intuitive interface

NGS GENERATIVE AI

A project focused on utilizing Google Generative AI within a MERN stack application

- Developed a MERN stack application integrating Google Generative AI to deliver real-time conversational responses based on user queries.
