MERN Stack Developer

MERN Stack Developer with experience in creating dynamic, responsive web applications. Expertise in React.js, Node.js, Express.js, and MongoDB to enhance user experience. Successfully integrated third-party APIs like Google Generative AI, Stripe and many more. Strong collaboration skills, focused on delivering efficient, maintainable code and a seamless user experience. Passionate about continuous learning and leveraging emerging technologies to solve complex challenges.

EDUCATION

BS SOFTWARE ENGINEERING in Software Engineering

KFUEIT   Rahim Yar Khan, Pakistan

WORK EXPERIENCE

AZLOGICS (PVT) LTD.   **01/2025 - Present**
REACT DEVELOPER   **Rahim Yar Khan, Pakistan**

- Enhanced user experience by implementing responsive web designs and optimizing application performance.
- Developed reusable components to facilitate faster development timelines and improve overall code quality.
- Maintained high-level expertise in React state management strategies.
- Collaborated closely with UX/UI designers to translate designs into functional components, ensuring a seamless user experience that reduced bounce rates by 15%.
- Integrated RESTful APIs into applications, which improved data retrieval speed and boosted overall application performance, leading to a better user satisfaction rating.

HELLO WORLD TECHNOLOGIES   **06/2024 - 09/2024**
INTERNSHIPS   **Rahim Yar Khan, Pakistan**

- I successfully developed advanced e-learning, social media, and e-commerce platforms.
- Managed both the frontend and backend, delivering a seamless and engaging user experience.
- Designed interactive course interfaces, implemented robust user management systems, and integrated dynamic features to enhance learning and social interactions.
- Showcased ability to create effective, user-friendly educational environments.

PROJECTS

E-Learning Platform
PERSONAL PROJECT

- **Developed** a **full-stack learning platform** enabling users to browse and access courses from mentors across various topics.
- **Frontend:** Built with **React.js** for an interactive and dynamic user experience.
- **Backend:** Implemented using **Node.js** with **MongoDB Atlas** for efficient data handling and scalability.
- **Responsive Design:** Designed with **Tailwind CSS** and **CSS**, ensuring accessibility across all devices.
- **Enhanced User Experience:** Utilized **JavaScript** and supporting libraries to deliver a smooth and intuitive interface.

LinkUp
PERSONAL PROJECT

- I work as a **backend developer** for a **social media app**, where I **design and implement APIs** that let users **connect, share content, and interact seamlessly**.Focus on **improving user engagement** and actively contribute to **growing the app's community** by enhancing its **backend functionality**.

NGS GENRATIVE AI

- Developed a **MERN stack application** integrating **Google Generative AI** to deliver **real-time conversational responses** based on user queries.
